

Pasadena Audubon Society (PAS) is a non-profit corporation whose mission is "to bring the excitement of birds to our community through birding, education and conservation"

To help us meet this mission statement, PAS is announcing the availability of funds for grants, donations and scholarships to be awarded on December 15, 2010.

Three categories of proposals will be considered:

1. Scholarships to help support Pasadena area residents to study ornithology or to attend conferences, classes, or workshops.
2. Research grants for collecting data on birds, birding, habitat conservation, and education.
3. Grants and donations for projects or organizations that have missions similar to those of PAS.

Proposals should be emailed to the chair of the grants committee at grants@pasadenaaudubon.org by October 15, 2010. Awards will be announced on December 15, 2010.

Details of proposal requirements/review criteria can be found at www.pasadenaaudubon.org/grants/.
