8 Actions to Protect Birds Where You Live:

- 1) Reduce or eliminate pesticide and weed killer usage.
- 2) Plant native plants.
- 3) Work to remove and prevent planting non-native plants.
- 4) Attract hummingbirds with sugar water, made by combining four parts hot water to one part white sugar, boiled for one to two minutes.
- 5) Put up screens, close drapes and blinds when you leave the house, or stick multiple decals on the glass to make your windows more visible to birds.
- 6) Let your yard get a little messy.
- 7) Close your blinds at night and turn off lights you aren't using.
- 8) Create or protect water sources in your yard.
